

## Litigation Report- Toronto 2024

Only outstanding case is the Hammond Software countersuit to the EDGAR declaratory judgment case against Hammond Software patents.

We are named as defendants in the countersuit along with some of the principals from EDGAR and EDGAR itself. We are being defended by Fish & Richardson with the assistance of our counsel Chris Sloan from Baker Donelson.

We are waiting for the judge to rule on the initial piece of the case (101 motion)
